Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: discussed the feature "the apparatus searches and caches data packets of said at least one PPV event when in a power down mode" recited in claim 1. The Examiner referred the Applicant's agent to the definition of the term "power-down mode" in the specification and reasserted that the prior art of record directed to Blatter reads on the claimed feature. The Applicant's agent proposed an amendment which may distinguishes the claimed invention from prior art. No agreement on the allowability of the Application was reached..
